Part-financed by the European Regional Development Fund
INVESTING IN YOUR FUTURE

The 2nd ESPON-INTERSTRAT Workshop is organized by the Greek ESPON* Contact Point in the framework of a joint programme of capitalisation and dissemination of the ESPON2013, entitled ESPON-INTERSTRAT. The ESPON-INTERSTRAT transnational networking activity deals with integrated territorial development strategies (ITDS) in Europe. This meeting is structured around three Round Tables which will be moderated by journalists and will discuss the following topics :

- regional organisation based on the new geography created by the administrative reform «Kallikrates» and how this new reality can integrate strategic planning and integrated territorial development strategies in favour of the new municipalities and the new regions, especially in the framework of the post 2013 cohesion policy.
- the ESPON findings deriving from the ESPON Project and their potential contribution in Greek policy making at regional and local levels.
- The future orientation and the role of cities as driving forces for smart, sustainable and inclusive growth in Europe, through the procedure of strategic planning and regulation.

Where can I find out more?

The ESPON Programme's main aim is to support planning policy development and territorial cohesion. Current research is focused on the driving forces shaping Europe such as:

- Knowledge and innovation
- Climate change
- Energy poverty
- Migration
- Accessibility
- Globalisation

ESPON provides territorial development concepts that can be adapted to specific situations in each participating state. It allows benchmarking against European regions and can therefore act as a platform for developing policies aimed at territorial cohesion.

Current ESPON projects include:

- ARTS—Assessment of Regional and Territorial Sensitivity
- DEMIFER—Demographic and Migratory Flows Affecting European Regions and Cities
- EDORA—European Development Opportunities in Rural Areas
- FOCI—Future Orientation for Cities
- ReRISK—Regions at Risk of Energy Poverty
- TIPTAP—Territorial Impact Package for Transport and Agricultural Policies
- CAEE—The Case for Agglomeration Economies in Europe
- ESPON TEDI—Territorial Diversity in Europe

More information on ESPON and all of the research outputs can be accessed via the ESPON website www.espon.eu.

ESPON-INTERSTRAT

ESPON-INTERSTRAT is a project aimed at facilitating the use of ESPON findings in the creation of strategic spatial plans. It supports transnational learning about the contribution of ESPON to integrated policy-making. For more information on ESPON-INTERSTRAT, have a look at the project website www.espon-interstrat.eu.

GR ESPON Contact Point

There is a Contact Point in each of the states involved in the ESPON 2013 Programme. In Greece, the Contact Point service is provided by Panteion University of Social and Political Sciences of Athens. Valuable information on ESPON research in Greece can be found on the Greek ESPON Contact Point's website www.espon2013.panteion.gr.
